

Give Water-Give Hope

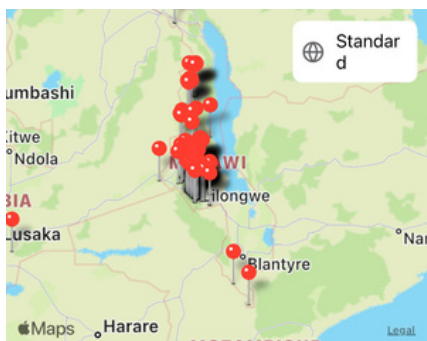

Wells Need Monitoring Solutions

DOXA has identified three common problems on pumps without monitors:

- No notification of broken pumps
- People don't know how to repair pumps
- Critical maintenance work isn't done

SmartPumps™ Provide Information

SmartPumps™ installed

1,000 hours of pump usage over 24 hours

ADDRESS

DOXA Wells Holdings LLC
1122 East State Route 73
Springoro, OH 45066

By December 2021, SmartPumps recorded:

- 188,000 hours of pump use
- 36 million gallons of water delivered

Meeting Tangible Needs with Measurable Results

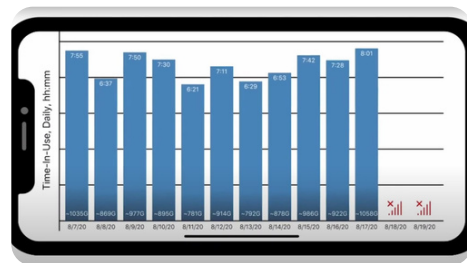

Monitoring Well Performance

After the SMARTPump™ Is Installed

The built-in monitor communicates with the satellite in orbit.

The satellite sends daily reports to smart devices using a customized app.

Sustainable Results From Monitoring

1. Clean water keeps flowing
2. Children's health improves
3. Opportunities are created for community improvement
